EDITORIAL NOTES.

Our usually intelligent contemporary, the *Virginia Enterprise*, to-day pays manager J. H. Haverly a handsome compliment, and refers to him as "a dapper little man, of indomitable pluck and energy who, more than any other, has earned the favor of the amusement-loving public," among whom, doubtless, the *Enterprise* editor may fairly be classed, even if on the usual free ticket basis. Just what Haverly has done to deserve the entire good will of the people of this coast is not so apparent. He has often advertised what he did not perform, and on the last visit of his combination, producing "The Strategists," lavishly billed several actors who long since left the company. Haverly is no better or worse than the average amusement caterer. Setting aside his egotism, as steadily displayed in scattering his portraits throughout the country, his first aim has been to benefit Haverly. We fail to notice the debt of gratitude to which the *Enterprise* so glowingly refers.

Yesterday's telegrams convey the astounding information that President Arthur's colored man Friday, one Alex Howell, who brushes the President's clothes, is troubled with the big-head, and in addition to adopting the polygamous practices heretofore sacred to Congressmen, is putting on airs over Senators and chiefs of departments. Just why this petty scandal should be telegraphed over the country no one has yet been able to learn. If the funky is waxing fat and saucy, let the Senatorial, or even Presidential boot, be applied, but spare us from being forced to elevate the presuming valet into one who affects the destinies of statesmen, and may be used as a black brand of discord between the President and his Western constituents. The Associated Press evidently has a bitter prejudice against President Arthur, judging from the tone of yesterday's dispatches.

The discovery was recently practically made by an Eastern journalist that certain kinds of lead pencils are poisonous. He had been in the habit of wetting the end of the pencil in his mouth between paragraphs, such being an established custom in certain parts east of the Rocky Mountains, and was taken suddenly sick with every symptom of poisoning. The incident has no particular suggestiveness to the majority of newspaper men on this coast further than as a matter of curiosity. Here the principal cause of alarm is the constantly recurring casualties from a reckless use of the cultivated shears, interspersed with skin diseases caused by persistent dabbling with the talented paste-brush.

Attorney-General M. A. Murphy says he will not be a candidate for reelection.

Buckshot Forster Makes a Speech.
LONDON, March 28.

In the House of Commons, yesterday, Forster admitted that it was true that protection had not done a great deal but declared it had done something. It had prevented many outrages and murders by enabling the authorities to look up those who otherwise might have committed such acts of violence. There were, he said, signs of hope, but outrages must be stopped. If they were not it would become his duty, and the duty of the House of Commons, to have stronger measures still. Forster's speech was frequently cheered in the warmest manner.

Wet Sugar Cane.
NEW ORLEANS, March 29.

If the water recedes in the sugar district within 20 days, enough can be saved for seed and for fair grinding. Appeals for rations continue from all overflown sections. No less than 55,000 rations were shipped yesterday for Bonaf river, and 6,000 for West Feliciana, Concordia and Madison parishes, also fodder for stock.

Increasing the Pensions.
WASHINGTON, March 28.

The Senate Committee on Pensions have reported a bill providing for a pension of \$72 per month instead of \$50, as at present, for cases of total disability, with back pay from the date that pension began.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

The President and the Chinese Bill.
NEW YORK, March 29.

A Washington special to the *Graphic* says: Hundreds of telegrams are being received at the White House, urging the President not to sign the Chinese bill. They come from all parts of the country, excepting the Pacific Slope. It is understood that the President is being strongly advised in Washington by public men there to both sign and veto the bill, and it is becoming a very grave question what to do in the premises. There are two phases of the question at present—right and wrong, in the abstract and political bearings of the case, strongly mentioned by Senator Jones of Nevada and Miller of California, and others from the Pacific Coast States, that it is not only right, but a political necessity, and that the President cannot afford to veto it. Others argue that the bill oversteps the bounds of the treaty and is not right, and that for this reason it will not stand the cool inspection of time when excitement wears away and the people of the country come to reflect upon the question. It is urged that the Pacific slope cannot be depended upon to vote the Republican ticket. California and Nevada both went for Hancock, and there is no guarantee of an imminent change of heart in that section. At any rate if the bill becomes a law the Democratic party will reap what credit there is in it, because they voted solidly for it, while Republicans refused to do so unless it was modified.

THURLOW WEEB'S VIEWS.

The venerable Thurlow Weed writes to the *New York Tribune*: There are two sides to the Chinese question. In our national infancy we commenced housekeeping by opening our doors to the guests from all portions of the Old World. It has been our boast for a hundred years that America would welcome the strangers from every clime, but China is taking our hospitality too severely in the Pacific States. The Chinamen deprive our industrious classes of employment; they work cheaper, do their work better, are far less troublesome than laborers with whom they come in contact and it is alleged and feared, that Chinese immigration will crowd those States with an element which does not, and will not assimilate to, or fraternize with our institutions or people. In the Atlantic States the Chinese are comparatively few in number; are industrious, frugal, inoffensive. The question is further embarrassed by diplomatic treaty relations. Will not the passage of the law closing our ports against inhabitants of friendly powers not only disrupt relations but provoke complications? Without entering upon this or other features of the question, I must be permitted to express my regret that Congress did not limit the operation of this law to five years. That would have given time for negotiations which might result in an amicable adjustment of the question in view of its importance and the difficulties by which it is surrounded. Would it not be wise for the President to return the bill, with the suggestion of modification which would make it acceptable to fair-minded men of all parties?

President Arthur's First Public Reception.
WASHINGTON, March 28.

President Arthur held his first public reception at the Executive mansion to-night. He was assisted by General and Mrs. Grant, several ladies of the Cabinet, Mrs. Senator Pendleton, Mrs. Cameron, Mrs. McPherson, and a few personal lady friends. Colonel Rockwell introduced the guests. The crowd was enormous. Every element of Washington society was present, including the Cabinet officers, members of the Diplomatic Corps, Justices of the Supreme Court, United States Senators and Representatives and hundreds of citizens, with members of their households.

The Louisiana Floods.
NEW ORLEANS, March 28.

The correspondent of the *Times-Democrat*, writing from Musson, Louisiana, says that the protracted contest is over and the beautiful Troche, Maringoin and Grasse country is desolated by the vast sheet of water pouring over it from four crevasses. Two hundred square miles of land, occupied by 4,000 people, are covered with water. Only three plantations escape. The woods are full of stock, wading and swimming in search of food, and already they are beginning to die. There is no suffering yet among the people, but fish and wild game are getting scarce, and there soon must be a call for help.

An Alabama Wind-Storm.
MONTGOMERY, March 29.

A storm in southeast Alabama blew down the house of R. J. Richardson, Barbour county, killing him. P. Redding, near Cuthbert, Georgia, and Mrs. Pond and Mr. Martin, near Brown's station were also killed. A number of people were badly hurt, and many houses demolished.

Presidential Nominations—Sergeant Mason's Case.
WASHINGTON, March 28.

The President has nominated Isaac D. McCutchen, of Michigan, as Secretary of the Territory of Montana, and

Commodore Pierce Crosby to be Rear Admiral. The Committee on Elections voted not to unseat Aiken, the Third District, South Carolina, Sub-Commissioner, and voted to unseat Finlay in favor of contestant Bisbee, of Florida. It is pretty well understood that the principal points upon which the Judge Advocate General bases his opinion in the Mason case is, that the charge of assault with intent to kill was not fully established by the evidence presented. Another point, said to have been raised by General Swain, is that Mason is not arraigned on a proper charge, as his most serious offense, from a military point of view, is that of seditious conduct under circumstances that might have resulted in mutiny among the soldiers serving with him at the time. The approval of the report by the President would result in the discharge of Mason from custody and render him exempt from further proceeding on the part of the military authorities for the same offense.

The New York Democratic Split.
NEW YORK, March 28.

The anti-Kelly Tammany Democracy met to-night and resolved that the so-called Kelly-Cornell alliance is such an infamous display of party treason as to make it eminently advisable that the Democratic State Central Committee should be convened, and such measures taken as will forever assure loyal Democrats that hereafter there will be no cowardly recognition or compromise made with John Kelly.

Bloody Work with Jail Birds.
BIG SPRINGS, Texas, March 28.

Six negro convicts escaped from a gang working on the Texas & Pacific railroad, killing one of the guard. They robbed a camp and secured rations, arms and civilian clothing. Two made their way to Mexico; the other four traveled east along the road, pursued by rangers. The Sergeant came upon them lying in the brush. They ran, and two were killed and the others were captured.

A Horrible Child Murder and Suicide.
CHICAGO, March 29.

The *Journal's* Pine Bluff, Arkansas, special says that Mrs. Ballard, of Lincoln county, after a disagreement with her husband, on Monday last, took her children, aged seven and four years, and a four months old infant, repaired to a pond in the rear of her home, where she broke the necks of the two oldest, threw their bodies into the pond and drowned herself and the infant.

Three Murders.
CHICAGO, March 29.

A bully, who murdered a man on the Chicago race track a few years ago, shot Martin Morahan in a political row in Kansas last night.

G. Boskerout, a reputable citizen of Archer county, Texas, was called out of his house last night by W. W. Parks, his son Theodore and a man named Bowles, and riddled with bullets. The affair grew out of a law suit, in which Parks got worsted. Alfred Hayes was assassinated in St. James, Mo., last night by Judge R. J. Bowman, who fired a load of buckshot at him without warning.

The Pacific Railroad Snits.
WASHINGTON, March 29.

The letter of Railroad Commissioner Armstrong favoring vigorous prosecution of the suits against the Pacific Railroad, has been referred to the Attorney-General for his guidance in the conduct of those cases.

Mrs. Garfield's Pension.
WASHINGTON, March 29.

The Senate amendment to the House bill granting a pension of \$5,000 per year to Mrs. Lucretia R. Garfield, and also to Sarah O. Polk and Julia G. Tyler, has been adopted.

The Overflow.
NATCHEZ, March 29.

Steamboats are now sailing over the wagon roads. All the bottom lands on the Mississippi side as far as Fladom are under water.

Flouring Mill.

John H. Moon, a thorough and competent flouring mill millwright has established his home and headquarters in Reno, Nevada, and now stands ready to build, rebuild or repair anything in the line of a first-class flouring mill in any part of the State for the least possible consideration in money that the job can be done for. Parties desiring machinery will find it to their advantage to correspond with me, for I can buy machinery for them cheaper than they can buy it themselves. Any parties desiring anything in the line of a mill, from a barley mill up to a merchant flouring mill, will find it to their advantage to correspond with me at once. JOHN H. MOON, Reno, Nevada, F. O. box 23.

To the Traveling Public.

People who ride on railroad trains need good watches. W. B. Miller, of Sacramento, keeps them, and invites all who visit that city to call at his store, No. 428 J street, and examine his stock. He makes a specialty of standard time keeps for conductors, engineers and other railroad men, and guarantees his goods and prices to be bargains. He has a large and fine stock of jewelry, diamonds, silver and plated ware, clocks, etc.

Notice to the Public.

The citizens of Reno are hereby notified that I, with the assistance of my family carry on the business in the bakery known as "Joke's Bakery," as heretofore, and respectfully ask the patronage of all our old friends for the support of said family. Contrary reports notwithstanding, Eddie Graf will deliver bread to all customers with his well-known civility and dispatch.

TELEGRAPHIC BRIEVITIES.

—Lord Erskine died in London yesterday.

—General Butler has positively declined to become counsel for Guiteau.

—Von Bunsen has been acquitted of the charge of slandering Bismarck.

—There were 40 new cases of small-pox, and five deaths in Cincinnati to-day.

—From Stettin, yesterday, 580 emigrants sailed for this country via Bremen.

—A Washington special states that General Beale is likely to be the new Secretary of the Navy instead of W. E. Chandler, as reported.

—It is thought probable in Washington that Teller's name will be sent to the Senate on Monday next. Secretary Kirkwood is to stay in till then.

—Secretary Hunt admits that President Arthur informed him he would nominate his successor. The President gives Hunt the choice of three positions.

—The Senate Committee on Civil Service have authorized Senator Pendleton to report the Civil Service Reform bill as introduced by him early in December.

—A placard has been posted in Dublin menacing the Members of Parliament from that city because of their supposed intention to vote for the Cloture bill.

—At St. Petersburg, yesterday, the chief of the Nihilists' Executive Committee, connected with the construction of the mine in Little Gooden street, was arrested.

—The English and American delegates to the Alliance of Israelites have arrived in Vienna, to confer with the Vienna Branch in reference to the emigration of the Russian Jews.

—About 25,000 shares of Western Union stock were shipped to London to-day. All doubt in regard to the control of the Mutual Union will be set at rest by official action within a few days.

—Senator Cockrell to-day offered a resolution directing the Secretary of State to inquire regarding the citizens of the United States now imprisoned in Ireland. Pendleton reported the Civil Service bill favorably.

—The French deputies yesterday voted 376 to 71 for a credit of eight million francs for the Tunis expedition for the second half of the current year. The occupying force will soon be reduced to thirty thousand men.

—The following Democratic Congressional Executive Committee was appointed this morning: Congressmen Rosencrans and Fowler of New York, Randall of Pennsylvania, Lefevre of Ohio, Cobb of Indiana, Thompson of Kentucky, and Jones of Arkansas.

JOTTINGS.

The festive fly and busy bee have put in an appearance.

E. A. Allen has a choice lot of wall-paper. See 50 cent column.

Bullion to-day levied an assessment of 30 cents per share.

Beautiful Easter cards at Allen's. Call early if you desire choice ones.

Mrs. C. J. Brookins and her young child are down with the measles.

Road Supervisor McFarlin is grading Second street, west of West street.

Fresh caramels at Nasby's bazaar. Thermometer at 7, 9, 11, 1 and 8, was 42, 56, 61, 62, 64.

R. H. Eggleston has 500 English currant bushes three years old, for sale. See 50 cent column for further particulars.

J. N. Pine notifies all persons not to buy a set of buggy harness taken from his house by Mrs. Mary A. Pine yesterday. See 50-cent ad.

J. K. Everett is offering a complete line of groceries and household supplies. Pure liquors for family and medicinal uses a specialty and retailed in any quantity at wholesale rates.

The Raymond excursionists from the East are due here next month. There will be about 200 in the party who will make an extended tour through Colorado, California and Mexico.

Jerry Crane has been appointed guardian of Mrs. Peleg Brown, insane, and of her heirs and is the only person authorized to receipt for any moneys due her estate and to transact all business in connection with it.

Miss M. A. Harney is in receipt of Spring importations of millinery from the East and San Francisco, which she will be pleased to have the ladies of Reno and vicinity examine whether they wish to purchase or not.

H. G. Wilson, of the late firm of Jones & Wilson, advertises elsewhere that all bills against the firm must be presented to him within thirty days. All owing the firm are requested to settle with Mr. Wilson without further delay.

Forty-six have signed the military roll. Before an organization can be effected it is necessary to have six more. Judge King will call a meeting of the company and appoint a president officer when the names required are obtained.

The attention of all who contemplate having plastering, kalsomining, brick-laying, etc. done is requested to the advertisement in another column of A. Moger, who is prepared to do all work of that kind in the best manner and at lowest rates.

Our Sheep Raisers.

Nevada wool growers, unlike those of Western neighbor States, always expect to meet with severe winters, and are prepared with food, shelter, etc., for their flocks. Consequently the usual fatness prevails, and all the herds report favorably for large clips. This, indeed, is encouraging, for it requires greater care at an increased expense to raise sheep here in Nevada than in California. Many wool growers are unacquainted with the San Francisco market, and often wool is sacrificed thereby. There are firms in San Francisco, prominent among whom is the old and reliable firm of Christy & Wise, commission merchants and wool growers' agents, who from years of experience, are thoroughly acquainted with the wool market in all its details, and who have given so much satisfaction to the wool growers of California; being in their interests exclusively, which accounts for the success of that firm's patrons.

Firemen, Attention!

Morris Ash, Foreman of Washoe Engine company No. 2, requests all members of the company to be on hand to-morrow at 3 o'clock sharp, for practice.

ISOLATED.

An interesting letter from Sierra Valley—The People Demand Railroad Communication with the Outside World—What Could be Done with a Little Water.

SIERRA VALLEY, March 20, 1893.

ED. GAZETTE: We have encouraging assurances that we are soon to have railroad communication with the outside world, probably by a branch from the Nevada & Oregon during the coming season. That the changes which will be wrought in consequence will be greater than those usually produced by a railroad penetrating a new section of country there can be no doubt. It does not require much prophetic lore to foresee that the thousands of broad, fertile acres of unproductive common lying here now utterly valueless, except for a few weeks early pasturing, must eventually, with the introduction of water, become the best farming lands of this whole valley. It is already well known that the best of our sagebrush lands will produce, even without irrigation, fair crops of all the small grains, and in some instances fine crops of alfalfa have been grown under the same conditions. With facilities for irrigating the yield of grain might easily be increased four or five fold, and alfalfa and timothy, redtop, and the various clovers, would return immense yields, for we have a climate peculiarly adapted to the growing of all the grasses, and also the necessary conditions for a full development of all their nutritive qualities, as the exceptional good qualities of our home-grown beef will attest.

Now the points more especially of public interest which I wish to make in this communication are the following:

With the advent of a railroad will be added a great impetus to the lumbering interests, and new mines will be developed. There will then naturally be a great increase in the working population and a consequent increase in the demand for all kinds of farming produce. The farming class will also receive accessions as rapidly as it becomes apparent that farming, even in the future, will become profitable—hence it will be but a short time until all available agricultural land will be occupied. But there are thousands of acres which will not become profitably available for farming purposes until some means are employed to provide them with water for irrigation, and this is something that we hope and believe a railroad, with its accompanying interests and enterprises, will also develop—an irrigation scheme of sufficient magnitude to embrace all of our waste lands. So thoroughly convinced am I that such a scheme is practicable, and would also be a profitable investment for capital to be employed, that I wish to make public some of my views upon the subject, hoping that they may be of some influence in directing capital to profitable and worthy investment.

My theory is, that the melting snow water should be impounded in reservoirs, taking proper advantage of the abundant natural facilities which nature here affords. As an instance of the sufficiency of the volume of water obtainable I have made the following estimates:

From one outlet on the west side of the valley, draining a watershed entirely of melting snow and rain, flows a stream averaging twenty feet in width and four feet deep with a velocity of about six miles an hour for four months of the year, just when we don't need it. Now if I have calculated right such a volume of water would fill a reservoir of two square miles in extent to the depth of 130 feet. Allowing 12 inches in depth for irrigation and waste, there would remain enough to cover 260 square miles, which gives in this case a very liberal allowance for waste, evaporation and over-estimates, as the immediately adjacent slope for irrigation will not exceed 20,000 acres.

The lumbering business alone, which would very naturally attach itself to this enterprise, would repay the entire cost of constructing the dam. I say naturally because the entire water-shed is heavily timbered with the various species of pine, spruce, fir, etc., and as the reservoir was filling, the logs could be floated to the outlet, with no expense for teams and logging outfit, there to be sawed into lumber as the water was drawn off for irrigation. Whenever we have an exceptionally heavy snow storm, as at the present time, cutting off communication with Truckee, railroads immediately become the order of the day; enthusiastic meetings are held, and it is unanimously resolved that a railroad is what we need and must have. One of your correspondents also recommends the one in Long Valley to go back and come in by the true route, namely, by the way of Dog Valley and Loyalton. It seems to me that the Nevada & Oregon now approaching us from Reno by the way of the Summit is on the true business. I would like to see it so located as to leave no part of the valley out of reach of its benefits. To go by the way of Beckworth's will surrender to Truckee the trade of Sierra Valley and the whole upper end of the valley, also Sierra City and the Butte mine; and these, I should suppose, would be sufficient inducements to cross near the center and make Mohawk by the way of McLean's, which also would inevitably bring your railroad across the outlet of the reservoir system I have suggested for this section, necessitating the construction of a moderate-sized trestle. The whole matter I think worthy of investigation and a most promising field for capital and enterprise.

E. J. W.

THE TRUCKEE'S RIVAL.

Puget Sound's Timber Trade and its Resources.

Everything pertaining to the lumber business is of interest to a large portion of the GAZETTE's readers, so no apology is needed for the space required by a somewhat lengthy account of the fine body of timber on Puget Sound, partly taken from the *Scientific American*. The timber comprises ash, dogwood, alder, white oak, maple, cottonwood, spruce, hemlock and laurel, among other varieties; but these are in limited quantities. The greater part of the timber is yellow fir and cedar. This vast fir forest is thought to be the finest tract of valuable timber land on the face of the earth. It covers an area of 32,000 square miles. It is accessible from every point on the sound, and from the ocean coast for a vast distance southward. The proprietors of the logging camps fell their first trees so close to the shore that they could be made to fall directly into the water if desired. The yellow fir is from 150 to 300 feet high, the trunks being from 6 to 12 feet in diameter at man's height from the ground. The first lumbermen cut only the five and six foot trees. The saw-mills could not handle logs which were larger than that. Even yet there is no saw-mill on Puget Sound which can saw a log that is more than eight feet in diameter. The consequence has been that at first, for many years, the axmen fell the small trees and the very large ones; and a piece of timber land which has been cut over once presents the singular phenomenon of a collection of small and of gigantic trees, with none of medium size among them. Since the enlargement of the mills, some camps are sending their men over the ground a second time to fell the big timber. The firs are cut off about five or six feet from the ground. The butts are generally unrotted.

It requires from half an hour to an hour to fell a good-sized tree. A large number of the fir tree trunks are unsound. The principal defect is what is called a "shake." It is a small track inside the tree, formed by the swaying of the tall tree in the wind. When such a track forms it soon becomes filled with the turpentine-like balsam which is characteristic of the fir. The wood-chopper at work on a big tree is frequently astonished by driving his axe through one of these fissures and seeing several gallons of turpentine suddenly run out. If the tree, when felled, is found to be defective, it is left where it lies. If sound it is cut up into logs from 30 to 130 feet in length, and hauled out of the woods. Sticks 150 feet long are sent out. The United States is exceedingly jealous of this immense tract of valuable timber land. It permits the timber to fall into the hands only of those who wish to do a legitimate business in logging. The logger employs about six men and a team of eight oxen. He builds a rough camp and boards the men. His running expenses are about \$35 a day, and he is able to get out of the woods about thirty thousand feet per day. The raft of logs is towed off to the neighboring saw-mill at a cost of \$1.50 per thousand feet, and he sells them there at the rate of \$8 per thousand feet.

The Hoffman Suicide.

The coroner's jury impaneled in Virginia City to inquire into the circumstances of the recent death of John Hoffman in that city, on Friday last returned a verdict that deceased came to his death from the effects of an overdose of morphine, administered with suicidal intent, and that the impelling cause was a blow on the head received some months ago.

It is thought that Hoffman's estate will scarcely pay his debts. He never recovered from the terrible blow on the head received some months ago from would-be robbers, and for which the Caldwell brothers are serving a sentence of 15 years each in the State Prison, sent there on a verdict of guilty of assault with intent to kill, which many who heard the testimony in the case, believe was not justified by the weak evidence of their guilt which was given. Hoffman was well known here, having lived many years in this State.

Next Monday's Minstrels.

The box sheet for the performance of Leavitt's Minstrels next Monday evening is now open at the postoffice, where seats may be reserved without extra charge. The company numbers 40 performers and is highly spoken of by the California and Eastern press. The San Francisco *Call* especially praises Bernard Sloman for his remarkable imitations of birds and animals, and adds: "We do not hesitate to say that the performance gave unalloyed satisfaction in all its departments and to the smallest minutiae."

Rheumatic Relief.

H. H. WARNER & CO., Sirs—I have frequently used your Safe Kidney and Liver Cure for rheumatic attacks and have always derived benefit therefrom.

E. D. KITTON.

Out Again.

Mrs. Downie, the lady who was knocked down and severely injured by a Virginia & Truckee locomotive recently, was on the street yesterday. The lady will lose her right eye.

ANOTHER COMSTOCK MURDER.

A Miner Robbed and Drowned—the Tragic Fate of Michael Hassett.

The Comstock is getting to be a dangerous place for residence. Another mysterious murder occurred there yesterday morning. Michael Hassett, surface foreman of the Yellow Jacket mine, was found dead in a pool of water about 25 feet from the railroad track near the tunnel close to the new Jacket shaft. Hassett was last seen alive near Gold Hill about 9 p. m., on Monday evening last, as he was on his way home, near the Homestead tunnel. James Parker, engineer of the Ward shaft, met him there and spoke to him. Hassett seemed perfectly sober. At 5 o'clock yesterday morning, says the *Virginia Chronicle*, a miner, going to work from Gold Hill to the Jacket shaft, found Hassett's lantern on the south side of the track, which had the owner's name on it, and took it over to the mine, where he left it. As Hassett had been laid off about two weeks ago, he was not expected at the mine yesterday, and nothing was thought of the finding of the lantern until five hours later, when the watchman for the railroad reported that he had found Hassett's dead body in a pool of water on the north side of the road. The gold watch and chain worn by Hassett, worth about \$150, were gone, and his pockets were empty. It is thought that he also had \$80 in his pocket last night when he left Gold Hill, but this is not definitely known. There are no signs of a struggle on or near the track. The body was taken to Gold Hill and carefully examined, but no marks of violence could be found. The face of deceased looks natural, and showed no marks of strangulation by compression of the windpipe, or by drowning.

The general opinion is that Hassett was robbed, knocked insensible by a sand-bag or similar weapon, and thrown into the pool of water to drown. He was a native of Pennsylvania, 50 years of age, unmarried, a member of the Knights of Pythias, and a Royal Arch Mason. This apparently adds another mysterious murder to the Comstock's long catalogue of crime, and, like the recent horrible Pollock tragedy, is likely to remain unsolved.

Personals.

General R. M. Clarke, of Carson, is in town on legal business.

John Briggs, the millman of Silver City, returned to the Comstock this morning.

P. A. Humbert, Superintendent of the Bullion, went to the Bay last night. He will proceed to Mexico on an exporting tour.

Judge S. D. King, of Carson, expects soon to take up his residence here. The Judge and his accomplished wife will be a welcome addition to our metropolitan society.

George W. Grayson, the San Francisco mining operator, well known in this section, was severely injured by falling down a shaft in the Lone Star mine in Calaveras county last Friday.

J. J. Shaugheeny, formerly Home Secretary of the Bullion Mining Company, passed through last evening on his way to Zacatecas, Mexico, where he will take charge of some valuable mining property.

Young Republicans.

The young men of Ormsby county who are willing to sacrifice two or four years of their valuable time for the benefit of the State or county, have organized a society to be known as the Ormsby County Republican Club. All members by signing the by-laws, pledge themselves to support the nominees of the State and County Republican Convention, and abide by the by-laws, rules and usages of the Club. The politicians of Ormsby have pulled off their coats early. In two months no two will think alike.

For Spring and Summer.

S. Jacobs the tailor has an elegant stock of Spring and Summer suitings. His large stock consists in part of the finest French, English, Scotch and American goods. Mr. Jacobs is having all the work he can do and intends to move from his present location to accommodate his business. He will employ another man after he removes to his new location.

A Gallant Groom.

Nellie Black, a school girl of San Leandro, Cal., eloped with Silas Lemon. Unable to get a marriage license in San Francisco, on account of her age, the gallant groom hired a tugboat, procured the services of an accommodating clergyman, and was married three miles outside the Heads, when Nellie squeezed her Lemon to her heart's content.

The Central Blockade.

The Central Pacific wash-outs, near Wells, have proved more serious than at first thought. There will be no through train from the East to-night. The eastward bound train, which was detained at Elko yesterday, will return westward this evening and make the usual connection with the V. & T. passenger train.

Improving.

J. K. Everett is not affected by the hard times. No longer able to find room in his store for the stock, he is obliged to carry to satisfy the demands of a growing business, he has commenced work on an addition 30x80 which, when completed, will give him room to properly arrange his stock.

Methodist Mush and Milk.

The mush and milk sociable given by the ladies of the Methodist Church last evening, was one of those pleasant, alimotive affairs which brought to many who attended enjoyable reminiscences of the early days of childhood, when a milk diet was the main reliance. The eatables were of excellent quality, and so prepared that even the aged and toothless could assimilate them without straining their gums. The entertainment was a gratifying success, although a temporary damper was cast on the even flow of the bovine fluid and the crisp crackling of the griddle cakes by the visit of a delegation of editors from Carson and the Comstock who got wind of the mush millennium, and came down on the evening passenger train. After cleaning out one mush kettle and a dozen milk cans the starving gang was summarily bounced by a posse of brethren, aided by officer Avery and others. The visitors returned on the morning's train, swelled out tight as bladders, and chuckling over their ability to ward off the attacks of famine for a few days more.

Something New.

In transit from New York: an immense variety of Spring fabrics in all the new designs for 1935. My importation of English, Scotch and French cassimeres includes all the choicest productions of the foreign mills, and the variety of domestic cassimeres are full and varied. No California or Oregon goods in stock suits, new woolen goods, at \$25 and upwards. Pants, new woolen goods, at \$7 and upwards. By car or by rail, call at the collier, bag in the back, or stick out in front. Call at the oldest establishment in Reno, and no effort will be spared to please you. A complete fit guaranteed. F. Kotzman, marshall. Leading Tailor in Reno

Testimonial.

To all who may be suffering from any incurable disease, attention is called to the wonderful cures performed by Mr. A. Zimmer of Reno, Nevada. While Mr. Zimmer does not claim to be a physician, yet, whatever he undertakes is sure to terminate in a permanent cure. The worst kind of diseases, such as cancer and scrofula in all its worst forms, lung, liver, heart and kidney diseases, scrofula, lupus and tumors weighing from 5 to 20 pounds, scrofulous eyes and blindness; bleeding and blind piles in the worst form; chronic and inflammatory rheumatism, erysipelas in all its worst forms, neuralgia in the stomach; ulcerated sore legs of all kinds; fits or falling sickness; salt rheum in all its worst forms; the seven kinds of dropsy; milk leg and white swelling; gangrenous or painful ulcers and mortification, though proof against the highest skill of renowned physicians and pronounced incurable by them, are easily treated by him and invariably the patient recovers and enjoys health thereafter free from all previous ailments. The remedies used by Mr. Zimmer are simple but efficacious, consisting simply of laying on of hands and the use of a few simple medicines of his own. He does not claim any supernatural powers, yet it must be conceded that the wonders he has performed that some powerful agency is allied with him. Numerous cases can be cited of almost miraculous cures, and any person by calling on or addressing me will receive further information concerning the subject, and proofs that the above statements are true.

A. C. GRIMMUS.

Boca, Cal., March 2, 1932.

Henry's Carbolic Salve, Is the BEST SALVE for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fetter, Chapped Hands, Chilblains, Corns and all kinds of Skin Eruptions, Freckles and Pimples. Get HENRY'S CARBOLIC SALVE, as all others are counterfeits. Price 25 cents.

Dr. Green's Oxygenated Bitters Is the best remedy for Dyspepsia, Biliousness, Malaria, indigestion, and diseases of the Blood, Kidney, Liver, skin, etc. It will cure DURNON'S CATARRHIC SNUFF cures all affections of the mucous membrane, of the head and throat.

DR. MOTT'S LIVER PILLS are the best Cathartic Regulators.

Peruvian Syrup cures dyspepsia, general debility, liver complaint, boils, humors, chronic diarrhoea, a violent affection, female complaints, and all diseases originating in a bad state of the blood.

Hub Punch. Clear, or with hot or cold water, milk or lemonade, "top" every punch for flavor. D rectly the cork is drawn, it is ready and can be used clear, or mixed with hot or cold water to suit the taste. Sold by all Grocers, Wine Merchants and Druggists. Trade supplied by Richards & Harrison, Agents for the Pacific Coast, San Francisco.

A Card. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you. FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEMAN, Station Q, New York City.

For lame back, side or chest use Shiloh's porous Plaster. Price 25 cents. At Oshorn & Shoemaker's. oc19eowd&w

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. oc19eowd&w

A Toilet Luxury. SOZODONT is a luxury as well as a necessity. Placed where it should always be upon the toilet, it adorns it, and gratifies the taste and senses. It sends out a delicious perfume and gives pleasure and health to its users.

ROYAL BAKING POWDER Absolutely Pure. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., INC. 11th & W. No. Wall Street, New York.

COAST CLIPPINGS.

The town of Globe, A. T., is growing rapidly.

The new Candelaria water works cost \$100,000.

Hay at Goose Lake, Oregon, is scarce at \$12 per ton.

Sheep shearing is progressing actively in Kern county, and times are lively.

There was a severe shock of earthquake at Cedarville, Cal., Monday night.

There is to be a small steamer placed on Pyramid Lake the coming summer.

The public schools of Olympia, W. T., were closed on the 10th inst. for want of funds.

At San Francisco, on Saturday, Mrs. Sanderson, a dressmaker, while yawning, dislocated her jaw.

The Plumas Eureka mine, Cal., yielded \$33,000 in January, and the expenses were put at \$19,000.

A fierce riot occurred among the Italian squatters on the Platte bottoms at Denver on Sunday, the 18th inst.

A side track from the Carson and Colorado Railroad is being graded to the Northern Belle mine, Candelaria.

The population of the Black Hills, Dakota, has increased not far from 5,000 since the census of 1880 was taken.

The ship "Sumatra," now at Hong Kong, has been chartered to take a load of Chinese to Victoria for \$10,000.

There appears to be a great scarcity of seamen at San Francisco, owing to the limited arrivals of deep water vessels of late.

Baron von Schroeder killed two grizzly bears on the San Margarita ranch, San Luis Obispo county, one day last week.

The courting match at Sacramento was finished Sunday. It is admitted to be one of the finest ever held in the State.

During the past 22 years 70 vessels have been built at the different yards at Humboldt Bay, Cal., and four more are now on the stocks.

The Maxwell ranch contains 1,700,000 acres of New Mexico land, and the Atchison, Topeka & Santa Fe Railroad passes through it.

A tin mine has recently been discovered near Silverton, Colorado, which, from present prospects, bids fair to equal any in the world.

A Comstocker in Nevada City, Cal., can hardly realize that he is in Cal., instead of Virginia City on seeing so many old Comstock miners there.

Ex-Governor Leland Stanford's new vineyard on Deer Creek (old Gerke Ranch) has 1,000 acres of grapes, with 60,000 producing vines and 600,000 new cuttings.

J. J. Cummings sues James Marsh at San Francisco to recover \$10,000, the value of "Lady Cummings," a trotting horse, which died while in charge of J. Marsh.

In Candelaria wood sells at \$16 50 and \$17 a cord. Rough lumber is delivered at \$48 per thousand feet, and at \$61 per thousand feet for dressed lumber. Shingles sell at \$6 50 a thousand.

TRUTH ATTESTED.

Some Important Statements of Well-Known People Wholly Verified.

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish herewith the fac-simile signatures of parties whose sincerity is beyond question. The truth of these testimonials is absolute, nor can the facts they announce be ignored.

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it on general principles, as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedy, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

Mayor of Moline, Chicago, May 30, 1881.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and in a few days I was cured.

Dr. Harris

"Care of the"

Thousands of equally strong endorsements—many of them in cases where hope was abandoned—have been voluntarily given, showing the remarkable power of Warner's Safe Kidney and Liver Cure, in all diseases of the kidneys, liver or urinary organ, and in all cases where there is any physical trouble, remember the great danger of delay. LEGAL

SUMMONS.

In the District Court of the Second Judicial

District, State of Nevada, in and for the

County of Washoe.

THE STATE OF NEVADA SENDS TO

William Thompson, R. D. Alvey, J. H.

Dall, E. Twaddle, E. Owens, Joseph Frey,

Mrs. Reuben Perkins, Harvey Perkins and G.

Carasco

GREETING: You are hereby notified in an action

commenced against you as defendant by Mrs.

F. A. Rogers, as plaintiff in the District

Court of the Second Judicial District, in and

for the County of Washoe, State of Nevada,

and answer the complaint therein within ten

days after the service upon you of this Sum-

mons (exclusive of the day of service), if

served in said county, or twenty days if served

out of said county, but in said District, and in

all other cases forty days; or judgment will

be taken against you according to the prayer

of said complaint. The said action is brought

to recover a judgment against you for the sum

of \$500 held coin, damages alleged to have been sus-

tained by plaintiff by reason of the breaking

and washing away of a certain dam belonging

to you, defendant, which you erected across

the natural channel of Franktown creek, in

said county, and thereby obstructed the flow

of the waters of said creek, plaintiff alleging

that by reason of your unskillfulness in the

construction of said dam, and your gross neg-

ligence, inattention thereto, and mismanage-

ment thereof, the said dam was broken, and

the great flow of water therefrom, on or

about the 23 day of February, A. D. 1881, wash-

ed upon plaintiff's land and premises, near

Franktown, in said county, the said action is

brought to recover the sum of \$1,000 all of

which plaintiff claims to be justly due to him

in the office of the Clerk of said Court at

Reno, in said county.

And you are further notified that if you fail

to appear and answer said Complaint, the said

plaintiff will take judgment for the said

amount, besides interest and costs of suit.

In testimony whereof, I, R. S. Osburn, have

hereunto set my hand and affixed the seal of

said Court, this 23 day of January, A. D. 1882.

R. S. OSBURN,

Clerk of the District Court of the 2d Judicial

District, Nevada, in and for Washoe Co.
